

Job Posting : Testing Engineer

Are you as excited about Driving Technologies of the future? Then get on board!

The Nardò Technical Center, our Italian subsidiary in Apulia, southern Italy, is looking for a Test Engineer. The Nardò Technical Center Proving Ground, rounds out our testing capabilities with an extraordinary range of testing options. Here we offer not just comprehensive testing tracks and facilities for all automotive car manufactures but also cutting edge engineering solutions for Testing.

This position is geared towards highly talented, passionate and dynamic Test Engineer to give an extra boost to our Testing Team at the Nardò Technical Center.

Task at a glance:

As part of our Endurance Team, you will support full-vehicle endurance and quality testing. Daily activities will include:

- Planning of routine test drives and workshop activities
- Regular follow-up and reporting of test status
- Diagnosis and analysis of a wide range of problems and customer complaints, from engine failures to perceived quality of the infotainment interface.
- Hands-on investigation of problems (in the workshop, on track and on the road)
- Accurate reporting of complaints and investigation results in customers' databases
- Communicate directly with the responsible R&D engineers to support root-cause investigations

Educational Essentials:

Bachelor's degree in Mechanical or relevant engineering. Specific courses or thesis work in the Automotive field will be an advantage.

We are looking for a graduate engineer with outstanding academic achievements. Any relevant work experience in the automotive industry will be considered an asset.

Qualification Framework:

- Good knowledge of modern vehicle systems
- Strong knowledge of vehicle maintenance and repair processes

Soggetta ad attività di direzione e coordinamento Dr. Ing. h.c. F. Porsche Aktiengesellschaft
C.C.I.A.A. di Lecce REA 252332 C.F. e P.I. IT08799420016 – capitale sociale Euro 7.000.000

- Experience with electronics diagnostics tools will be a big asset
- Effective reporting and presentation skills
- Fluent German and Italian language; English strongly recommended.
- Excellent knowledge of MS office tools. Ability to quickly adapt to new database environments. Macro programming skills will be an asset.

Interpersonal Skill/Personal Assets:

- Ability to communicate effectively with engineers, mechanics and test drivers
- Driven by a strong passion for cars
- Analytical approach to problem solving
- High accountability and determination to achieve project goals
- Motivation to quickly learn new skills
- Ability to multitask and work well under pressure
- Ability to optimize and standardize repetitive tasks
- Great capacity to work in a team-oriented environment
- Willingness to move for business travels abroad (<20% time average)
- Flexibility to work on shifts and weekends, according to needs.

Location: Nardò (Lecce)
